SEXUAL ABUSE:
1) Age 5: Molested by a neighbor boy.
2) Age 9: Molested by an elderly man who was a neighbor.
3) Age 11: Molested by a son of friends of the family.
4) Age 14: Forced seduction by a psychologist - was able to escape.
5) Age 22: Raped, drugged and held captive for 3 days by a psychiatrist. Was not his patient. Didn't report it.

EXPERIENCES:

1) Night terror dreams since infancy
2) Age 3: Began playing with "light beings". Said that they were "Jesus and his friends". Beings that emanated great amounts of light (as a child, equated them with Italian holy pictures). My parents let me roam on our property, unsupervised for hours.
3) Age 3: Became extremely afraid in the evening hours. Would refuse to go to bed because I felt that there were people outside my window waiting to take me away. I began bringing large cardboard boxes into my room, so that I could hide from them. Sometimes the fear would extend into the daylight hours. One day, I became lost because I crawled into the crawlspace of our large two story farmhouse, to escape "them". My parents were frantic! My father finally rescued me from the bowels of the house, after a great amount of the day had passed.
4) Age 4: Began awaking at night expecting to find spiders in my bed. I became transfixed by them - to the point that my father

found me playing in a black widow's nest.
5) Age 6: Declared to an entire family gathering of 300, that I would never have children. The same night, I saw a large ball of light streak across the sky. My parents also saw it. They said: "Never mind, it must be Santa Claus".
6) Age 8: Saw a large "angel" floating at eye level with me (I slept on the top bunk of a bunk-bed) in the early morning hours. I bound out of bed to tell my mother that St. Michael had just visited me. She humored me...
7) Age 11: I was playing in a deserted farmhouse in Tennessee, with a girlfriend - when we both suddenly realized we were in the middle of a huge field of yellow flowers. It was strange. We hadn't noticed it before (we had been playing for quite some time - and the farmhouse had no doors or windows, so visually, it would be difficult to miss). We became almost "drugged" with the discovery and I said: "Every time I'm sad, I'll remember this field, for as long as I live".
8) From 1976 to 1980, I did a lot of travelling throughout Northern New Mexico. Every time I passed through Abique, Chama, or Questa areas, I would feel extremely uncomfortable. I was strangely shaken by these places, and every time I returned home I would turn on the radio and hear reports of cattle mutilations in those same places, at the same times...
9) Middle of October, 1980: I returned home late, after spending an evening with friends (I had one drink and a puff on a joint, much earlier, with little or no effect). I put my key in the lock and was stunned by a powerful light. I looked to my right and saw an immense ship, that covered my entire field of vision. I got a sudden, but profound look at it! The next thing I remember is being crouched in the corner of my portal, completely naked (but oddly warm). I looked up to see all my clothes neatly folded and stacked by the door, and the key still in the lock. I quickly gathered my things, went inside, and noticed the clock. I was shocked to discover 6 missing hours. I slipped into bed. The next thing I remember was a deep voice in my head saying: "We are all ONE". The

next morning I told a couple of friends. They didn't believe me, but begged me not to report it. We turned on the radio, just as the disc jockey was announcing that there were 8 sightings of a UFO the night before. I remained silent.

10) June 1986: My husband and I were caught in a large fog bank in Arkansas. Upon emerging from it (we were driving a pick-up truck and hauling a utility trailer), we saw a large day-glow green ball fly across the sky, landing in a clump of trees to our right. The next thing we remember is a coyote staring at us from the road, with day-glow green eyes - the exact color of the flying ball. We were not wearing watches and the truck did not have a clock. We were very shaken, and ended up driving all night, to get the hell out of Arkansas!

11) Santa Fe, NM, September 1988: Watching television one evening when out of the corner of my eye, I saw a large, bright, purple ball streak across the sky. Curious, I stood to catch a better look at it. I saw it land beside the prison (a few miles away as the crow flies). When it landed, it illuminated the entire sky for about 2 seconds. Later that night, I bolted to a sitting position, in bed. I felt that something was wrong with the house - I jumped out of bed to discover that the front door was wide open. When I awoke, my pillow case had blood on it. Both my husband and I were having a lot of nosebleeds at that time. My ears were also bleeding and I had strange marks on my body that I went to the doctor about. She's ruled out fungus - she didn't know what it was. It was a triangle, in the middle of a circle.

12) Grand Junction, CO, August 1989: I awoke in my motel room (we were on holiday) to find two beings on top of the table, directly in front of me. I pinched myself to make sure that I was awake. Indeed I was! I walked over to them. I reached up to touch one of them. The next thing I remember I was lying in bed, in the morning.

13) Newport, OR, Sunday, 12:30 A.M. - 3:24 A.M., 11/18/90: I was watching Saturday Night Live. Paul Simon was on, I noticed the time. I was alert and very much awake, but all of a sudden I was in a dream with a friend and two men in black suits, escorting us to a large silver disc. The next thing I remember was sitting back on my couch, watching a show on UFOs.

14) Newport, OR, Saturday, 2 A.M. - 2:51 A.M., 12/1/90: I was just getting into bed, when I noticed a strange, bright green line, glowing above the curtains in the bedroom. I stood up and walked over to it to investigate. I felt a "presence" in back of me. I turned around and saw in the hallway mirror, a shadow about 3 feet tall and whitish. I made a bolt, trying to catch it. The next thing I know, I'm sitting up in bed looking at the clock.

COMMENTS:

After all these years of strange occurrences, my curiosity is keener than ever, I've gone through stages of denial and complete doubt. I've mentally investigated many possibilities that might be causing such happenings - but, I am constantly haunted by dreams, curious feelings (on all levels) and strange marks on my body - not to mention chronic ailments of unknown origin. I'm not only concerned about my experiences and their ramifications, but my husbands role and safety through all this. I have been drug and alcohol free for almost 8 years, and don't partake in caffeine or tobacco either. My husband is equally strict with himself.
